

Number Resource Policy Development Activities

Wednesday, 8 December

1330-1700

Barahona 4

Members of the ASO Address Council, representing the five Regional Internet Registries (RIRs), will present a summary of policy development activities, including global and regional policy proposals under discussion, and upcoming RIR open policy meetings.

All members of the technical community, representatives from government and business groups, and all others interested in the continued growth of the Internet are invited to attend this session.

Come learn how Internet number resource policy is made, what it impacts, and how you can participate in shaping it.
