

Meet the NRO

The Number Resource Organization

About the NRO

The Number Resource Organization (NRO) (estd. in 2003) is the coordinating body for the five Regional Internet Registries (RIRs) that manage the distribution of Internet number resources, including IPv4 and IPv6 addresses, and Autonomous System (AS) numbers.

Serves as the ASO

- Address Supporting Organization
- Part of the ICANN supporting organizations since October 1999
- Active participants of the ICANN empowered community mechanisms
- Charged with reviewing and developing recommendations on Internet Protocol (IP) address policy and advises the ICANN Board on policy issues relating to the operation, assignment, and management of IP addresses.

Meet us at ICANN 84

ARIN, serving Canada, many Caribbean and North Atlantic Islands, and the United States

LACNIC, serving Latin America and the Caribbean

Second Consultation on the draft RIR Governance Document (ICP-2 Review Process)

- The second version of the draft “RIR Governance Document”, intended to replace ICP-2, was published in August 2025
- There is an ongoing Public Comment Process open until 7 November 2025
- Please engage with us and share your thoughts
- Please also read the supporting documents:
 - The redline version outlining the differences between the first and second versions
 - The summary of differences and the rationale behind the changes
 - A report summarising the input received after the consultation and public comment on the first draft
 - A high-level assessment by the RIRs of their readiness to implement the draft document
