

# The Challenge Of IPv6 Transitioning

---

Marco Hogewoning  
RIPE NCC

# RIPE NCC Efforts

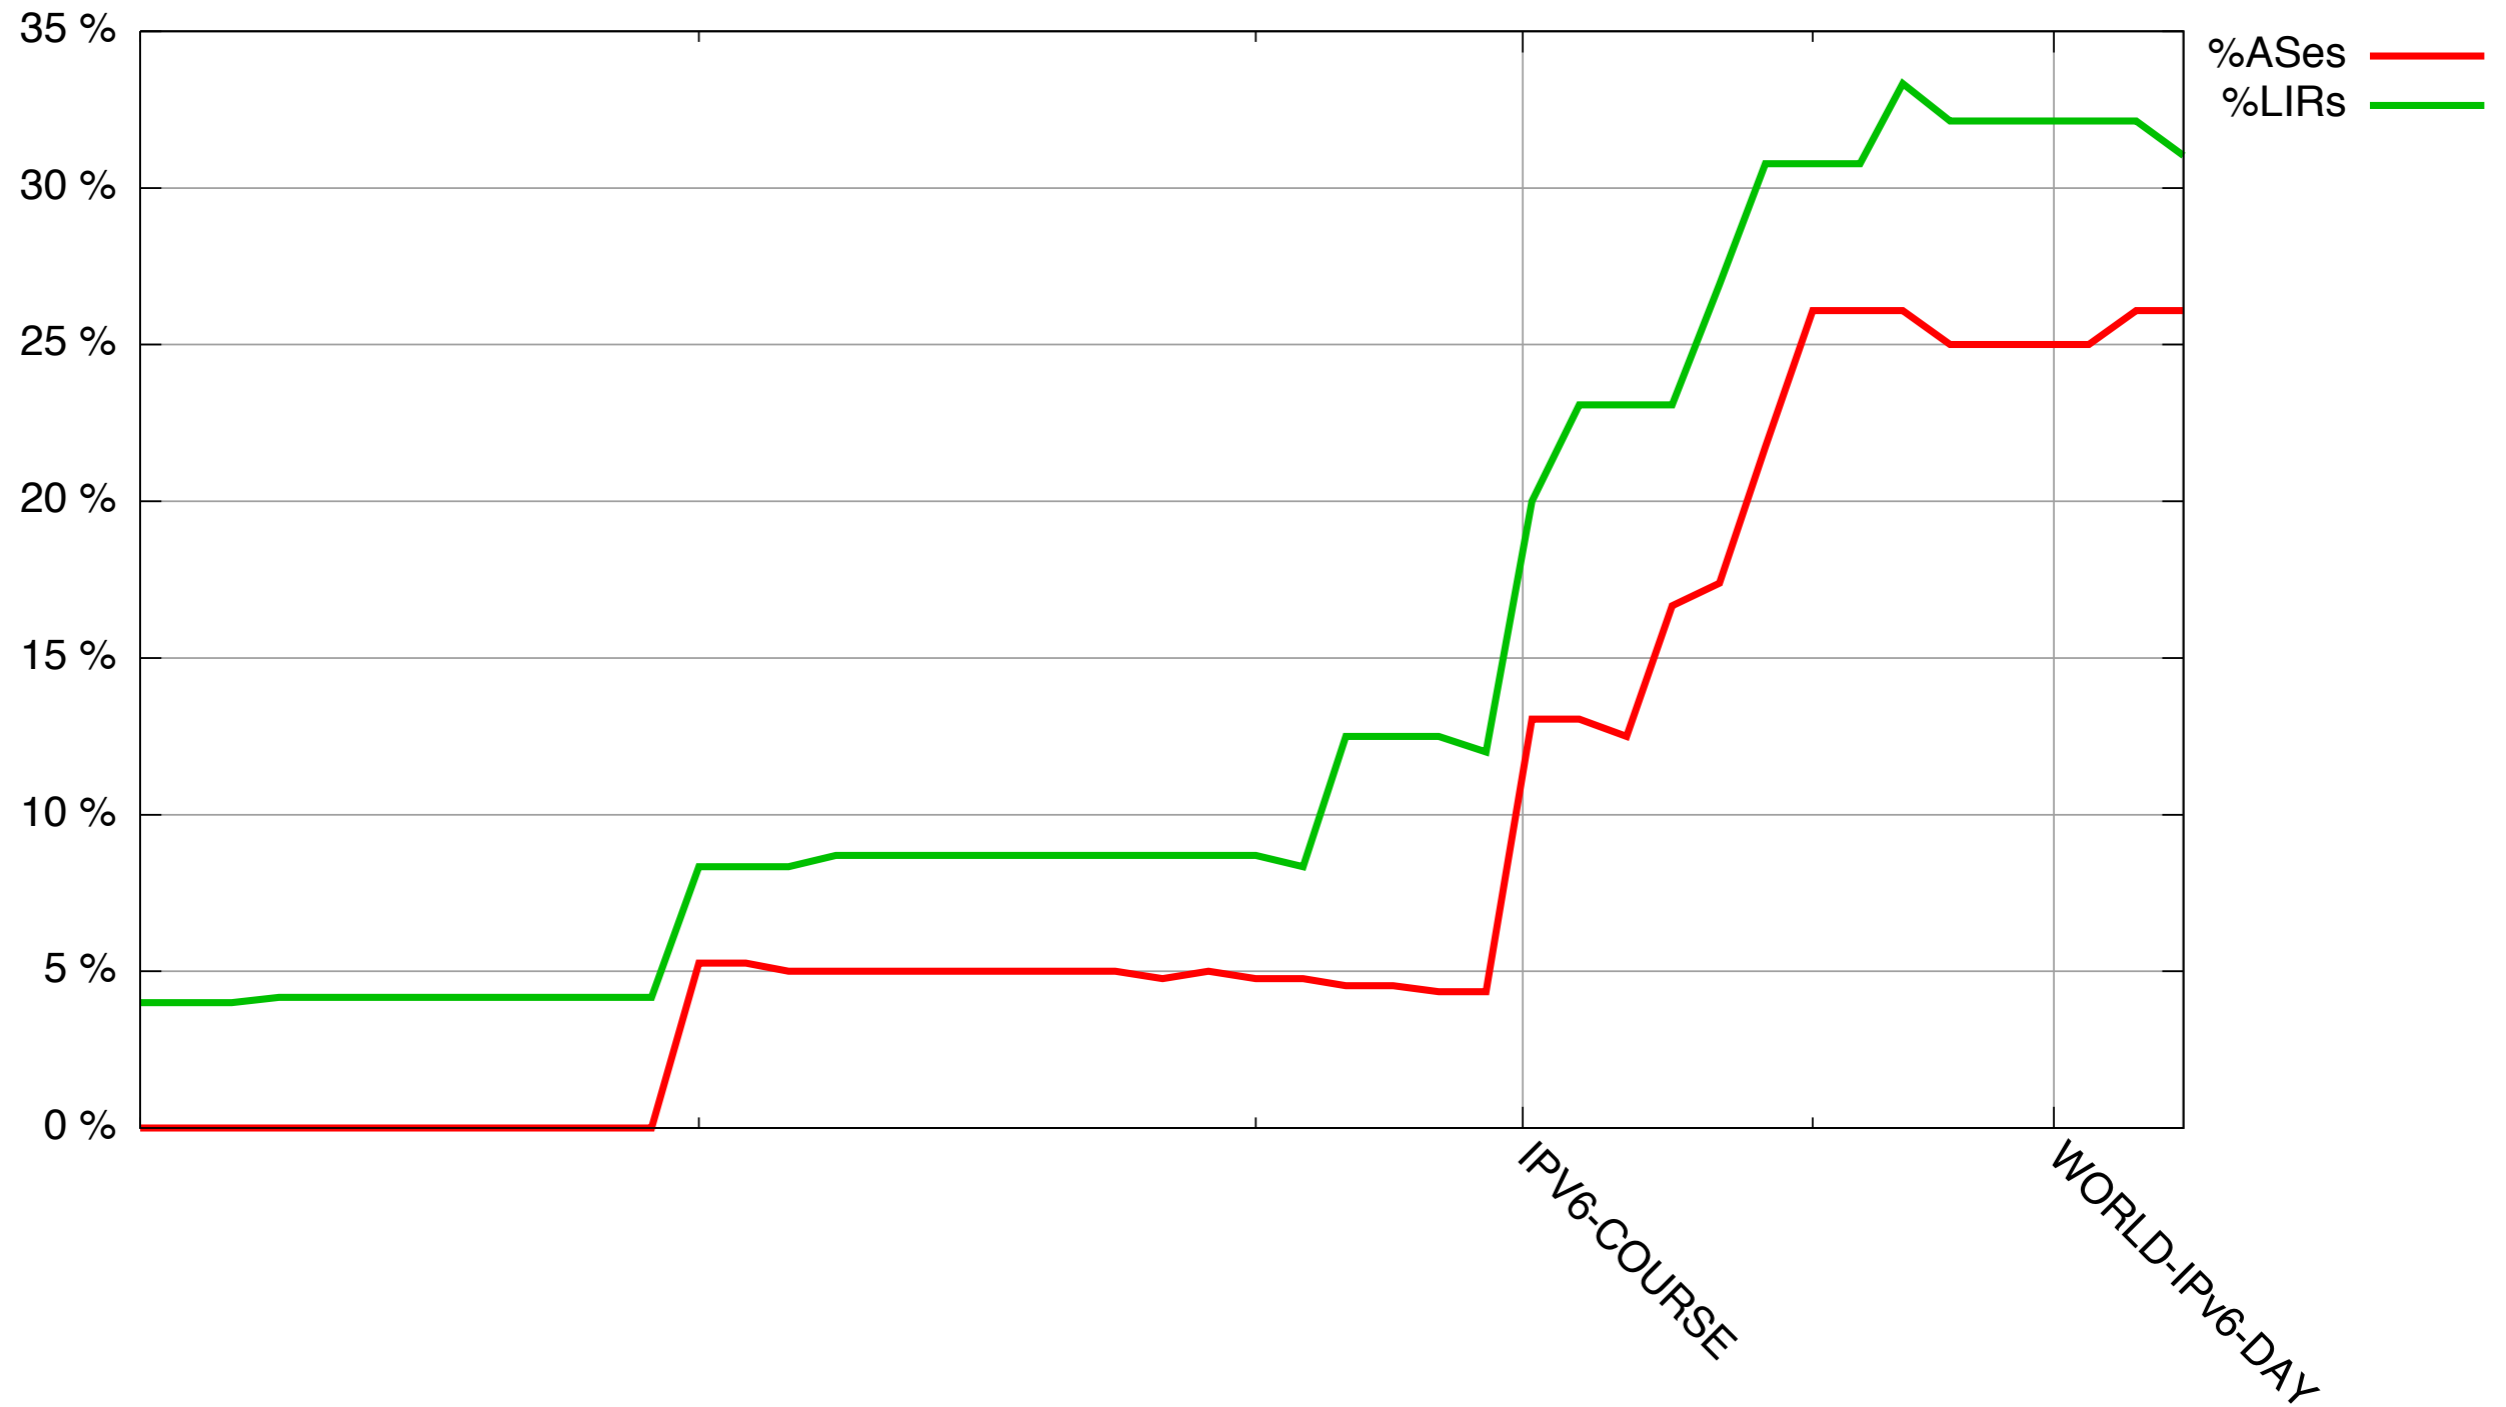

---

- Education
  - Explain what is heading our way
  - Explain how to adopt to this new situation
- Various methods
  - Websites and fora
  - Participation in conferences and seminars
  - RIPE NCC Training Courses
  - IPv6 Roadshows together with MENOG and ENOG

The biggest challenge in  
transitioning to IPv6 is  
non-technical

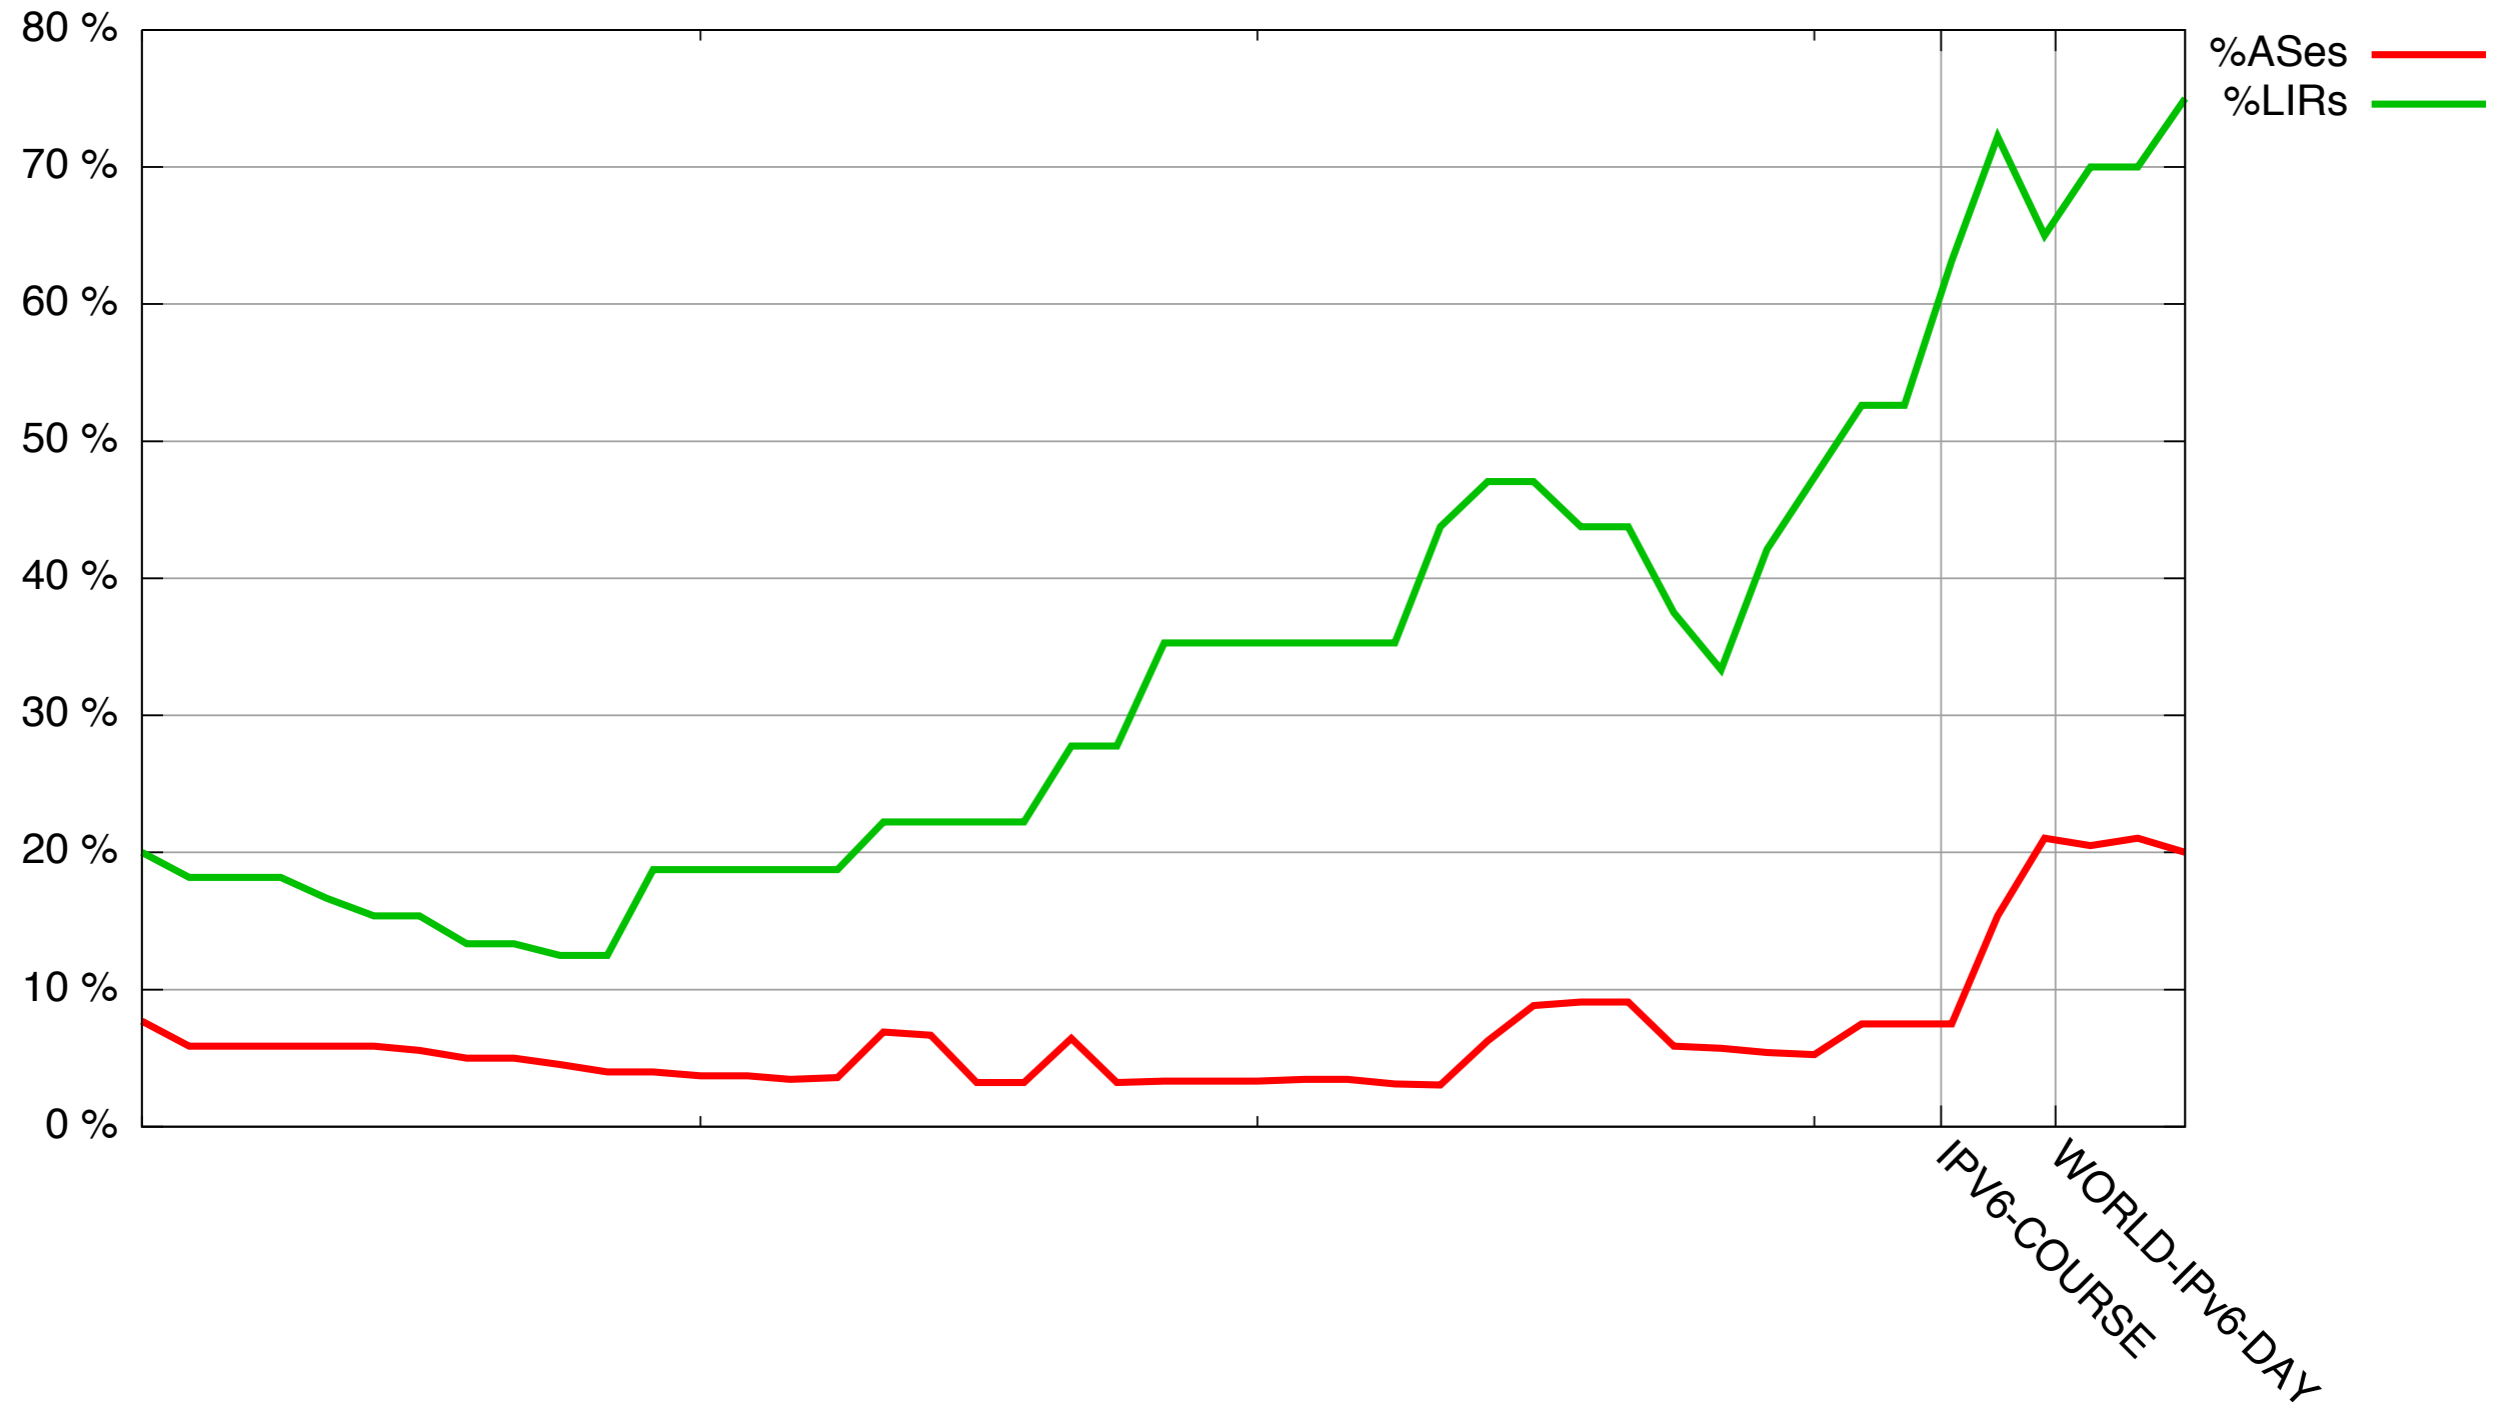

# Example: Bosnia and Herzegovina

IPv6 deployment indicators (2008-now) in country: BA

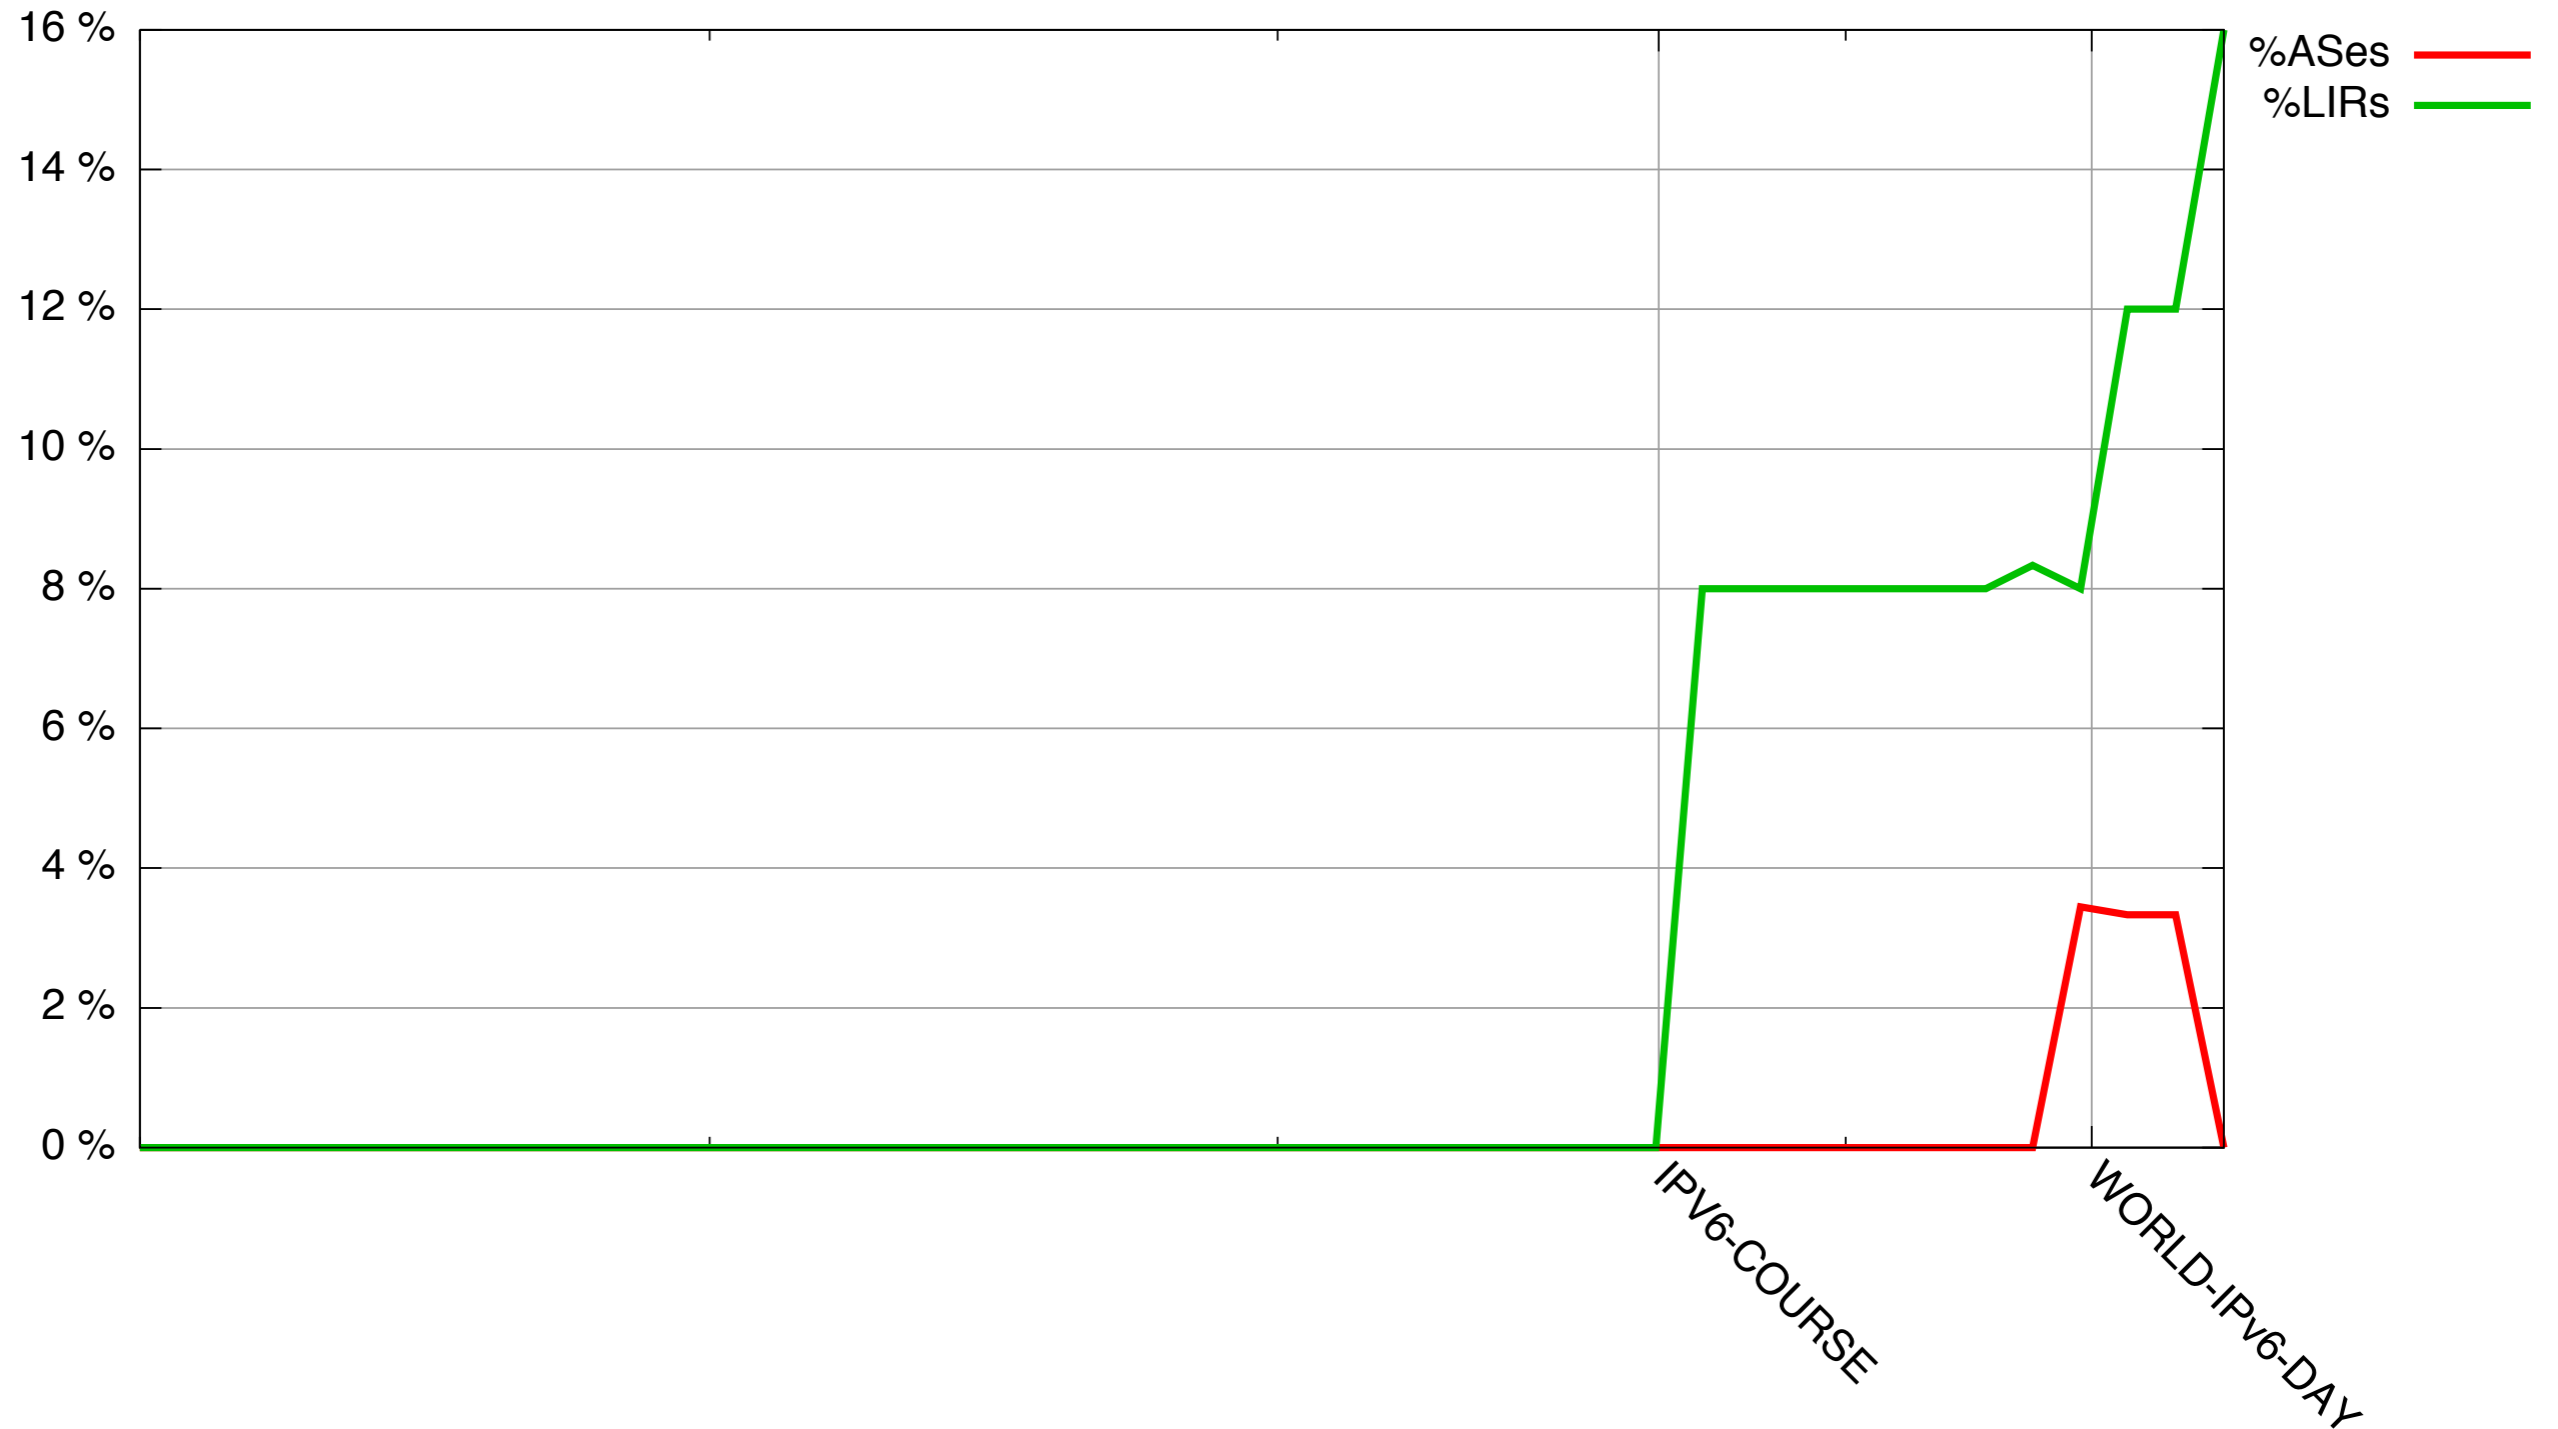

# Example: Armenia

IPv6 deployment indicators (2008-now) in country: AM

# Example: Georgia

IPv6 deployment indicators (2008-now) in country: GE
